## WRITE • COLLABORATE • SHARE

- State-of-the-art interactive technology lets you share files and collaborate without huddling around a small monitor screen.
- Edit content, send and receive emails, conduct Google® searches, view web pages, marketing materials and more, right from the board!
- Write with just your fingertip!
- Display any file from your PC or Mac and changes and documents instantly to your hard drive, the board's built-in 2GB memory, or both!
